TECHNICAL SKILLS

- Software Architecture and Engineering: TypeScript, JavaScript, Node.js, NestJS, React, Next.js, Flutter, Clean Architecture, Microservices, Distributed Systems
- Data, Integration, and Cloud: SQL Server, Redis, Azure, AWS, Azure Service Bus, Azure Storage, Docker, Kubernetes
- Delivery, Quality, and Observability: Azure DevOps, CI/CD, SonarCloud, Snyk, Datadog, Prometheus, Grafana

PROFESSIONAL EXPERIENCE

Tech Lead | Act Digital | 10/2025 - Present

Campinas - SP, Brazil

- Lead engineering initiatives at Act Digital for products delivered to Anheuser-Busch InBev, focusing on technical direction, architecture, and quality standards.
- Drive distributed systems modernization by migrating legacy applications to microservices with NestJS, Next.js, Azure Service Bus, Azure SQL Server, and Azure Storage.
- Establish quality and delivery practices with CI/CD, automated testing, SonarCloud, Snyk, and observability using Datadog, Prometheus, and Grafana.

Senior Software Engineer | Grupo Profarma | 08/2024 - 10/2025

Rio de Janeiro - RJ, Brazil

- Worked on B2B distribution systems in distributed environments, focused on operational reliability and maintainability.
- Contributed to monolith-to-microservices migration, strengthening scalability, traceability, and architectural consistency.
- Built order and invoicing solutions focused on availability, performance, and operational stability.

Software Engineer | Banco BMG | 05/2022 - 08/2024

Sao Paulo - SP, Brazil

- Developed Open Finance applications with focus on security, digital experience, and regulated integration requirements.
- Led migration from Flutter Web to Next.js, improving performance, security, and conversion.
- Acted as primary developer for mobile Open Finance journeys covering secure payments and data-sharing flows.

Third Sergeant | Brazilian Army | 05/2015 - 05/2022

Rio de Janeiro - RJ, Brazil

- Built internal systems with JavaScript, React, Express, MongoDB, Python, and Django across planning, implementation, and support stages.
- Led teams of over 20 people for more than five years in high-responsibility operational environments.
- Combined leadership under pressure with multidisciplinary technical execution to sustain delivery continuity and reliability.

EDUCATION

- MBA in Software Engineering - USP/ESALQ
- Bachelor's Degree in Computer Science - UniCarioca

CERTIFICATIONS

- EFSET English Certificate (C1 Advanced)
- Introduction to Cybersecurity
- JavaScript Full
- Flutter

LANGUAGES

Portuguese (Native), English (C1 / Professional), Spanish (Intermediate)
